UP Smart Cards Ltd. at 85/2, Mokter Bari Road, Auchpara, Tongi, Gazipur-1710, specializes in designing and manufacturing scratch cards. Our 12,000 sq. ft. facility employs 45-50 dedicated professionals to ensure smooth operations. We are proud vendors to Grameenphone, Robi Axiata, and Banglalink, supplying them with high-quality scratch cards since 2015.

Mission:

To deliver innovative, user-friendly solutions through exceptional products and outstanding service in smart cards.

Vision:

To be the leading provider of advanced technology solutions in security printing, ensuring the highest standards for our customers.

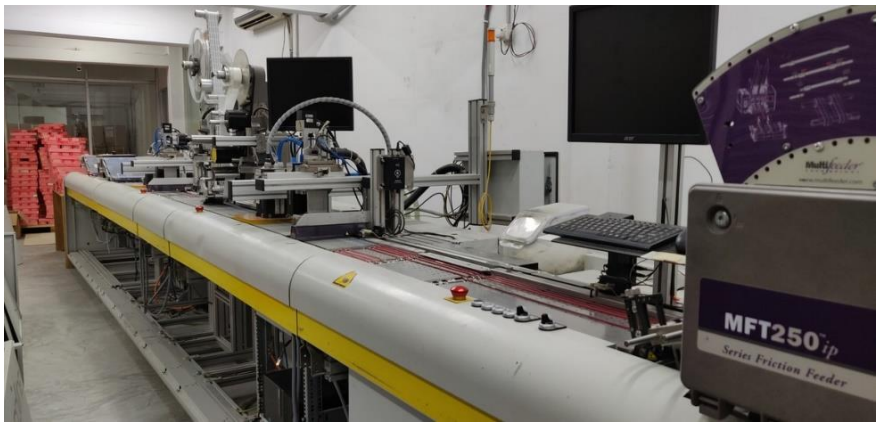

Products:

We specialize in manufacturing scratch cards for mobile recharge, vouchers, and lotteries, adhering to international and industry standards. We use a secure VPN system for data loading and generation, monitored by experts.

Technology:

- **Personalization Machine:** Our German-made Atlantic Zeiser (Cardline Versa) personalization machine enables secure card personalization with modular systems to ensure no visibility of hidden/secret numbers/info, and sophisticated cameras to detect any faults.

- **State-of-the-Art Machinery:** Equipped with advanced technology, our facility ensures efficient production and high-quality output, setting us apart in the industry.

Quality Assurance: Our expert QC operators ensure the highest quality standards. Each card is checked for errors, and any faulty cards are sent back for reprinting. Cards are then boxed in a disciplined manner, with each serial number following consecutively. Each box is indexed, allowing for easy identification of individual cards from millions produced.

Production Capacity:

- **4 in 1:** 2,500,000 PINs per day
- **5 in 1:** 3,200,000 PINs per day
- **10 in 1:** 4,300,000 PINs per day
- **20 in 1:** 5,600,000 PINs per day
- **25 in 1:** 6,750,000 PINs per day

85/2 Mokter Bari road, Auchpara. Tongi, Gazipur – 1710. Phone: +88029814407, e-mail: info@upsmartcards.com; web: www.info.upsmartcards.com

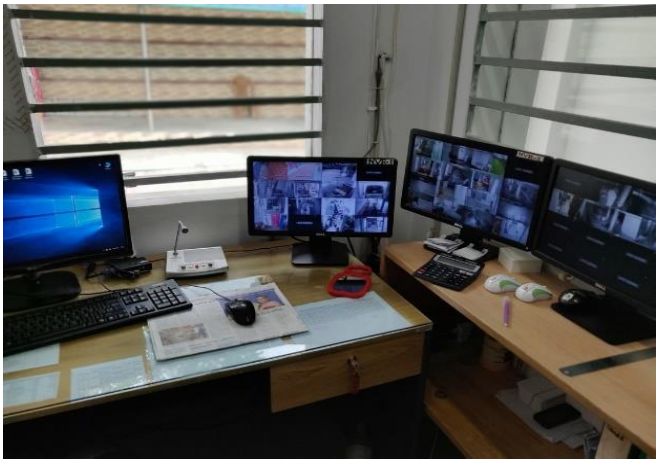

Support Systems:

- **Power Backup:** We have a 112 kVa UPS made by Socomec and a Cummins 100 kVa generator to ensure uninterrupted production and data security.

Security System: Strategically placed surveillance cameras and expert security staff ensure a secure environment.

85/2 Mokter Bari road, Auchpara. Tongi, Gazipur – 1710. Phone: +88029814407, e-mail: info@upsmartcards.com; web: www.info.upsmartcards.com

- **Fire Safety:** Our comprehensive fire alarm and firefighting systems include fire-rated doors and designated assembly points for staff safety.

Health and Safety: We prioritize the health and safety of our employees by adhering to strict safety protocols. Our facility is equipped with modern safety equipment, regular safety drills, and comprehensive health programs to ensure a safe working environment

Commitment to Climate Change: UP Smart Cards Ltd. is committed to addressing climate change issues. We are actively working on reducing our environmental impact through sustainable practices, including efficient energy use and waste management, and exploring eco-friendly materials and processes.

Employee Welfare: We provide a dedicated canteen offering subsidized lunch and tea/coffee facilities. Additionally, we organize occasional outings and games to ensure recreation and a positive work environment for our employees.

Conclusion: UP Smart Cards Ltd. aims to deliver the finest quality products and timely services at reasonable prices. We look forward to building strong relationships with our clients by consistently adding value to their businesses through our industry expertise and innovative solutions.
